2. About Danak

ABOUT DANAK LOGISTICS

Your Reliable Partner for Logistics & Operations

Danak Logistics Resource Ltd is a Nigerian company providing integrated logistics, operational, and business support solutions across the maritime, energy, construction, commercial, and infrastructure sectors.

We help businesses source what they need, manage what they have, and execute what matters — from procurement and equipment management to facilities, marine logistics, and project support.

By connecting trusted resources, capable partners, and practical expertise, we deliver efficient, dependable solutions tailored to the needs of each client.

3. Services section

Our Services

Practical Solutions. Reliable Execution.

Danak provides a range of integrated services designed to support business operations from procurement and logistics to property, facilities, and project management.

Whether you need to source critical equipment, manage a facility, coordinate marine operations, or support a project, we provide the resources and operational coordination to get the job done.

[View All Services]

Then structure the services equally:

Marine & Logistics

Marine logistics, offshore support, vessel coordination, transportation and related operational services.

Equipment Management

Equipment sourcing, deployment, coordination, maintenance support and operational management.

Procurement & Supply

Strategic sourcing, vendor coordination, supply of equipment, materials, and operational requirements.

Facilities Management

Integrated management of commercial, office, and property facilities, including maintenance coordination, security, cleaning, utilities, and day-to-day operational support.

Project & Operations Support

Practical support for construction, infrastructure, energy, and commercial projects — from planning and coordination to execution.

Consultancy & Advisory

Operational, logistics, and project advisory services that help clients make better decisions and execute efficiently.

4. Change the overall tagline

The current:

Reliable Marine Logistics & Offshore Support Solutions

is too limiting.

Alternative Option

Connecting Resources. Delivering Solutions.

THE DANAK ADVANTAGE

Built to Deliver. Ready to Support.

We bring together the resources, expertise, and operational coordination businesses need to get things done — reliably, efficiently, and safely.

Reliable Service Delivery (These can be listed like you currently have done, but it should be expandable to reveal the breakdown)

(Breakdown)

We take a practical, hands-on approach to delivering dependable solutions across logistics, procurement, facilities, equipment, and project support.

Integrated Solutions

From sourcing and supply to facilities and marine operations, we connect complementary services to address your operational needs in one place.

Safety & Professional Standards

Safety, accountability and professionalism are built into how we work, with a commitment to responsible service delivery across every engagement.

Responsive Project Support

We understand that operational needs can change quickly. Our team works closely with clients to respond efficiently and keep projects moving forward.

Strong Resource Network

We connect clients with trusted suppliers, service providers, equipment and operational resources to get the right solutions in place.

Client-Focused Approach

Every business has different requirements. We listen, understand the challenge and tailor our approach to deliver solutions that are practical, efficient and fit for purpose.

DANAK — Vision & Mission

Vision

To be a leading force in building, connecting and managing the infrastructure that drives Africa forward.

Mission

We connect resources, expertise and opportunities to deliver reliable solutions across infrastructure, marine, logistics, facilities and business services.
